****Receive Department emails by accepting invites as a guardian to your child's Google Classroom account****

Music Technology Program

Students are encouraged to work in a modified learner-active classroom, bringing as much creativity to their work as possible.

Students are encouraged to structure and schedule their work time, while being able to work at their own pace and ability level.

Music Technology Program

Students will be able to work with music application software to help assist in the reading and writing of music, the training of their ears to hear the elements of music, the composing and notating of music, and the recording of music.

Music Technology Software

Software found in the Music Technology Lab ONLY

- Auralia 5 - Ear Training software
- Musition 5 - Music Theory software
- Sibelius 7 - Music Notation/Publishing software
- Mixcraft 8 - Digital Audio Workstation/Music Recording software

MusicFirst Online Classroom

Students will have the opportunity to record, write and create music using the MusicFirst Online Classroom. Each student has a username and password to access the site from any computer.

Links to the online classroom will be posted on each class web page. Look for this icon!

MusicFirst Online Classroom Software

MusicFirst Online Classroom software package - can be accessed from anywhere via the internet/cloud

- Auralia - Ear Training software
- Musition - Music Theory software

Grading

- Homework
- Projects - Graded on meeting the rubrics and/or criteria of the project. Some projects may be given out as mandatory assignments, choice assignments, or optional assignments.
    - Factors in Grading
        - Quality of project
        - Student ability level
        - Amount and quality of time invested
- Lab grade
    - Knowledgeable use and proper use of equipment
    - Preparation for class - flash drive and other class materials
    - Proper lab recording etiquette

Our hope...

When the students leave in June, we hope that they are able to take the skills that they've learned and apply them to any music technology out there. We hopt to give them a sample experience of:

Music Composition

Music Arranging

Music Theory

News Interview & Radio Editing

Studio Recording & Editing

Movie Soundtrack Composition

AND MORE...

THANK YOU!

Enjoy the rest of your evening!
