

Shure SM 58

Includes the SM58-LC (cable not included), SM58S (on/off switch included), SM58-CN (cable included)

Comes in SM58 wireless version as well

Adapter: SM58-X2U (XLR to USB Signal Adapter)

NOTE: Taking the windscreen off, this microphone is, in concept, the same design as the SM57 (DO NOT TAKE WINDSCREEN OFF)

Type: Unidirectional (cardiod) dynamic

Frequency response: 50-15,000 Hz

Applications—Vocal Use in live performance, sound reinforcement, and studio recording, indoor or outdoor

Built in spherical filter minimizes wind and breath “pop” noise.
